# Aditya Gadre

Web Development Intern at Newton's Apple | Founder and Developer CoderZDevs Group | International Rated Chess Player | ML Enthusiast | Python Developer

Pune

## Summary

Hello Everyone,

I am Aditya Gadre.

Coding and developing algorithms on basis of a well analyzed logic is by passion.

I aim to be a Full Stack Developer. I have done 10+ python projects using GUI. Much interested in Software development I aspire to innovate a software for public help and ease away much of complicated software tasks of present decade. I am also a international rated chess player currently competing for a title and have played many inter districts and intercollege level tournaments in my chess career. My chess achievements also include some international as well as national tournament experience with some of most well known Grandmasters of India. Apart from Web and Python based learning my interest also settles in machine learning and learning different programming languages based on the most advanced concepts and syntaxes of OOP's (Object Oriented Programming Languages).

---

## Experience

Newton's Apple

Web Development Intern

August 2021 - Present (5 months)

PVG's Chess Team

Head
